

# CAPABILITY STATEMENT

Business Contingency Group (BCG) provides Humanitarian Assistance, Business Contingency/Continuity of Operations, Disaster Recovery, and Emergency Management planning and consulting services to a diverse and prestigious customer base in both the public and private sectors. BCG is an SBA 8(a) Certified Small Business that was founded in 2002 and operates both within the United States and internationally.

## Differentiators

First and foremost, our staff has the hands-on experience and knowledge needed to make your project a success. We assemble a team for each project that meets the requirements of the project. We do not look at cookie cutter solutions but rather at solutions designed to meet the specific objectives of each project. It is BCG's philosophy to go beyond the scope of work delivering additional value to ensure that the true objectives are met. Our services are based on professional practices and standard methodologies as defined by national and international organizations. BCG strives to set the bar for success.

## Core Capabilities

Consulting • Logistics • Technology • Training • Software

### **Consulting**

BCG's consulting services offer the expertise and SMEs needed to meet your objectives. Our services include:

- Humanitarian Assistance Programs
- Emergency Operations Center (EOC) Design and Management
- Business Contingency/Continuity of Operations
- Disaster Recovery
- Emergency Management
- Assessments
- Risk Management

### **Logistics**

Emergency and disaster preparedness/response rely on logistics to support their operations. The effectiveness and speed of logistics are crucial. Our services include:

- Supply Operations
- Warehousing and Inventory
- Procurement
- Transport
- Logistics Support

### **Technology**

Technology is an integral part to many projects and BCG can provide the technology support needed to make these projects a success. Our services include:

- Information System Integration
- Emergency Management Systems
- Display Systems
- Satellite Communications
- UAV/Drone

### **Training**

BCG offers many training solutions to best meet the needs of the customer and project. These include:

- Workshops/Presentations
- Hands on Training
- Drills/Exercises
- e-Learning

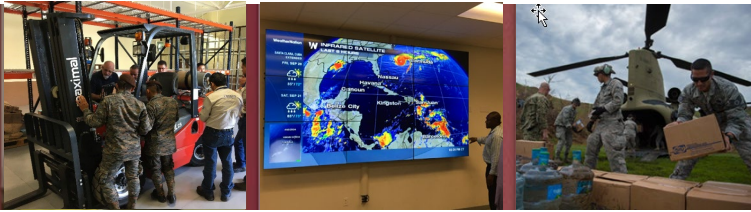

Areas of training include:

- Emergency/Disaster Management
- Emergency/Disaster Response
- Business Continuity
- Warehousing/Logistics

### **Software**

BCG offers software solutions that support our other core capabilities. These include:

- Warehouse Management Software – BCG is the exclusive provider of ACS Humanitarian, a low-cost Windows-based application that supports warehouse and logistics functions for the humanitarian sector.
- Business Continuity Software - BCG is a partner and reseller of RecoveryPlanner software that encompasses all components of Business Continuity.
